

DOGWOOD[®]

DENSIFIED HARDWOOD *pro*

Hartco[®]

Love your floor as
much as your Dog.[™]

The New Standard in Real Hardwood Floors.

A beautiful home has always come second to a home filled with life, love and dogs. But it doesn't have to anymore.

A revolutionary breakthrough in hardwood flooring. Hartco Dogwood Pro densified wood is a 100% natural product created using a 100% natural process. By harnessing the basic properties of heat and pressure, densified wood achieves extraordinary results as pure as nature.

This is more than a new product, it's a whole new category of flooring. What takes nature millions of years to do, we can do in a matter of minutes, transforming real hardwood into even harder wood. In this regard, densified wood truly stands alone as the first of its kind.

The Dogwood Pro Advantage

Our patented technology uses heat and pressure to create a revolutionary hardwood floor that's **100% real hardwood while being 6X more dent resistant and 4X more scratch resistant than typical hardwood**

100% Real Hardwood

6X More Dent Resistance

4X More Scratch Resistance

Waterproof*

MADE IN THE USA

with global and domestic components.

Inhibits the Growth of Bacteria

TESTED BY SGS Global Services

*See warranty for details.

The Dogwood Pro Difference

Scratch and dent damage caused by dogs is a leading reason why homeowners think they can't have hardwood floors. Not anymore, Dogwood Pro densified wood lets you enjoy real hardwood floors that are completely worry free!

#1 IN DENT RESISTANCE

When tested for indentation resistance by ASTM D2394, a 2" weighted metal ball is dropped from a 60" height and indent impact levels are measured - Dogwood Pro performed best!

DOG SCRATCH TEST

Dogwood has equivalent performance as SPC and Laminate along with being superior to Traditional Solid and Traditional Engineered Wood.

JANKA HARDNESS OF DENSIFIED VS. ORDINARY HARDWOOD

DOGWOOD PRO – THE TOUGHEST FLOOR EVER MADE!

Our patent pending process uses simply heat and pressure to close the open cells in hardwood and densifies the wood making it the hardest flooring on the market.
